EXPERIENCIA

Creative Portfolio

Dic 2024 - Presente

Personal Project

- Built an interactive web portfolio using React, Tailwind CSS, and the Cloudinary API to showcase photography and videography projects in an elegant and responsive manner.
- Doubled my client base (2x) by effectively presenting my creative work and professionalism through the platform.

SMT (Traffic Fine Management System)

Sep 2024 - Dic 2024

Cenfotec

- Implemented fine management and dispute features using .NET and React, positively impacting administrative efficiency.
- Integrated real-time email notifications and payment gateway to streamline case resolution.
- Developed dashboards and heatmaps with key statistics to support data-driven infrastructure improvements.

HealthTag

Aug 2024 - Dic 2024

Cenfotec

- Developed an IoT solution using ASP.NET MVC and SQL Azure that provides access to medical history by scanning an NFC wristband.
- Built a secure user panel for updating medical data, reducing risks during emergencies.
- The solution supports elderly individuals and those with chronic conditions by ensuring rapid and accurate medical care.
